*Bus routes, for extended and country routes, are determined by the location of student homes, major routes which provide the most direct access from the school, concentration of students within a given area, and the age of students (older students are able to safely walk further from drop-off to home). **It should be noted that door-to-door drop-off should never be assumed, as the above aspects may not always allow for this.***

Students receiving transportation are subject to the rules and regulations governing behaviour on school buses.
